The Honda Junior Red Riders (JRR) program is designed for kids aged 6-12 who dream of riding! The program will teach your child the fundamentals and the importance of safety gear, how to ride safely off-road and why it is important to respect your riding environment.

You will quickly see your child make new friends, gain confidence and have a great deal of fun. It is important that the JRR participant know how to ride a two wheel bicycle comfortably before signing up.

The JRR program is offered Saturday and Sunday in the month of June and Thursday to Sunday in July & August* (Wednesdays are available for larger group events such as birthday or corporate parties- contact admin for details)

The Honda JRR camp location is:
Honda Campus 180 Honda Blvd, Markham, ON
(Highway 404 & Elgin Mills)

Camps consist of (1) 4 hour block and are offered 1/2 day sessions, 8-12 am or 1-5pm. Please ensure you advise us of your preference at the time of booking. The cost per 1/2 day session is \$150+tax. Honda provides everything for the camp day experience.

Each child will be fitted with a full set of safety gear, a CRF dirt bike and full riding instruction (ratio for classes are 1 instructor per 4-5 kids). To ensure fun and wellbeing regular water and snack breaks are enforced. The camp days run rain or shine (cancelled only if there is thunder/lightning). Each child will leave with a JRR graduate certificate as well as a swag bag. Motorcycles used for the program are CRF50F, CRF110F and CRF125. Children and bikes will be matched by size.

Not sure if you're ready for a full camp experience? Honda offers a "try it" JRR program --- check it out at the upcoming Honda Indy Toronto (July 12-14). This event offers the JRR program in a condensed format.

Registration is on a first- come, first-served basis at the event and is offered with a minimum \$10 donation to the Make-a-Wish Foundation. Due to volume, these sessions are approximately one hour long, JRR participants are fully geared up in safety equipment and taught the basics of dirt biking and rider safety.

* Some exceptions apply
